RUBA 42 CW

LED wall and ceiling-mounted light white CCT switch 3000/4000K

This allows you to opt for sustainable lighting indoors too: RUBA is one of the SLV lights that is partly made of recycled plastics (PCR). It is also a shining example of how quality and high durability can be combined in the most resource-friendly way possible. The white wall and ceiling surface-mounted light with its solid and flat construction, high colour rendering index (CRI>90) and flexibly adjustable light (3000/4000 K) has a strong look that can be sustainably used in both private and commercial outdoor areas in entrance areas, terraces and balconies. Thanks to IP protection class 65 and shock resistance grade IK08, it is also extremely safe.
