

CoreLine Malaga LED

ZRP220 AD60/60 A5

ZRP220 | AluRoad Acc. - 60 and 60 mm - -

The Philips CoreLine Malaga LED family consists of two sizes for urban street lighting. Both feature a Philips LED engine as a light source and a Philips Xitanium driver – a combination that results in energy savings of 50%. CoreLine Malaga LED has been designed to be as efficient as possible. It offers the same performance as the SON-T 50, 70, 100 and 150-W luminaires it replaces, providing the right amount of light in the right place. Furthermore, as the LED light engine in CoreLine Malaga LED will last for the lifetime of the luminaire, it will return your investment simply by saving on the multiple lamp replacements required with SON-T. With its extended gland feature, the CoreLine Malaga LED luminaire is easy to install with no need to open the luminaire to connect the power cable. At the same time, the flat glass cover can be removed to allow access to the driver for maintenance, if required. Special versions of Malaga lighting are available with extra options. However, these specials are manufactured to order only, and have a longer delivery time. The options include: Wide beam (DW) optic, additional surge protection device (10 kV), Marine Salt Protection (MSP) paint finish, Micro Mini Pro photocell 35 Lux, a built-in (glass) 6A fuse, and a 3-metre external flying lead cable (H07RN-F). Not all of these options can always be combined with the others. For more advice, please consult your Philips partner.

Product data

General information		Brand	
Protection class IEC	-	Philips	
Material	Aluminium	Operating and electrical	
Angle	-	Input Voltage	- V
Accessory colour	Aluminium	Line Frequency	- Hz
Product family code	ZRP220 [AluRoad Acc.]	Input frequency	- Hz

CoreLine Malaga LED

Approval and application	
Ingress protection code	-
Mech. impact protection code	-
