Potential-distribution modules; system accessory

A wide range of accessory modules is available for individual requirements of machine and plant engineering. Various potential distribution modules are available for the supply of sensors with 2- to 4-wire connection technology directly from the remote I/O system. These offer 16 "PUSH IN" potential points and supply your application with any auxiliary potential available. An empty module, where the system bus and voltage supply are looped through, allows you to plan expansion slots in a system and to start these up without any interruptions if required.

General ordering data

Version	Pressing tools
Order No.	1525820000
Type	PWZ-UR20-HD
GTIN (EAN)	4050118347067
Qty.	1 pc(s).

Creation date October 31, 2023 7:38:41 PM CET
